

Forum Meeting – Program

Selective Attention and Individual Differences in Motivation and Emotion

Wednesday, 19th April, 12-5 pm

12:00 pm	Welcome
12:05 pm	<p>Session 1</p> <ul style="list-style-type: none">• The intersection between culture and emotion: Tracking how cultural factors shape threat perception and memory processes (Belinda Liddell)• Seeing red when angry (Taatsha Sivananthan & Kim Curby)• Understanding executive functions under stress: The role of emotion regulation (Vera E. Newman, Belinda J. Liddell & Steven B. Most)• The effect of reward on implicit learning of gaze-contingent events (Tom Beesley, Steve Most, Daniel Pearson, Debductta Misra, & Mike Le Pelley)
1:25 pm	Break
1:40 pm	<p>Session 2</p> <ul style="list-style-type: none">• The influence of body posture on social cognitive conflict: An event-related potential study (Eric Sun & Eddie Harmon-Jones)• Are popular posed “emotion” stimuli good enough for research? (Amy Dawel, Luke Wright, Jessica Irons, Rachael Dumbleton, Romina Palermo, Richard O’Kearney, & Elinor McKone)• Rewarding outcomes can influence both attentional capture and suppression (Daniel Pearson & Mike Le Pelley)• A closer look at the repetition assumption in training selective attention (Enrique Mergelsberg, Ottmar Lipp & Patrick Clarke)
3:00 pm	Break
3:15 pm	<p>Session 3</p> <ul style="list-style-type: none">• Attentional control predicts change in bias in response to attentional bias modification (Patrick Clarke)• Attentional bias mediates the effect of tDCS on anxiety reactivity: Evidence from a dual-video stressor task (Nigel T M Chen, Julian Basanovic, Lies Notebaert, Colin MacLeod & Patrick J F Clarke)• Targeting implicit cognitions to reduce young adults’ binge-drinking: Trial of an online intervention (Melanie White)• Examining moderators of uptake and effects of attentional bias modification for chronic pain (Julie Vermeir, Melanie White & Daniel Johnson)
4:35 pm	Closing
